

DESCRIPTION

The LBQF linear bar grille with quick fix are generally used in exhaust air applications. The quick fix allows for fast and easy installation with flexible ducting attached to the rear.

The fixing tabs are held into position with a screw that when released allows the fixing tabs to slide in and out of the adaptor for fixing.

The quick fix allows for fast and easy installation and eliminates the need for a header box for additional cost reduction.

CONSTRUCTION

The frame and blades are of extruded aluminium.

The adaptor is of an all zincanneal and/or galvabond construction along with butterfly damper fitted to the rear.

Standard finish on the grille is white satin.
