

DESCRIPTION

The WPL large weather louvres are designed to provide weather protection of outside air or discharge openings, yet allow free passage of air.

The rounded louvre design allows quite operation and less restriction to air flow.

The WPL louvres are typically used for larger sizes and air quantities.

CONSTRUCTION

The frame and blades are of extruded aluminium.

Standard accessory supplied is 12mm x 12mm x 0.8mm bird mesh.

Standard finish is natural anodised (other finishes available upon request).

OTHER MODELS

Small weather louvre, round weather louvre, channel weather louvre, penthouse louvre, louvre screen, louvre door and stainless steel louvre.
