

DESCRIPTION

Shapeair provides a comprehensive range of plenums, fan coil unit starter kits and accessories to suit the most demanding of project requirements.

The plenums and fan coil unit starter kits are designed to suit a range of residential, commercial, industrial and other project specific applications.

Separate to our standard offering, these can be custom designed to suit specific applications.

As an optional extra, a variety of PVC or aluminium profiles can be fitted to suit project specific installation requirements.

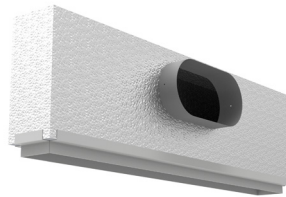

Available with optional disc damper, with or without strings and/or externally lockable quadrant kits.

CONSTRUCTION

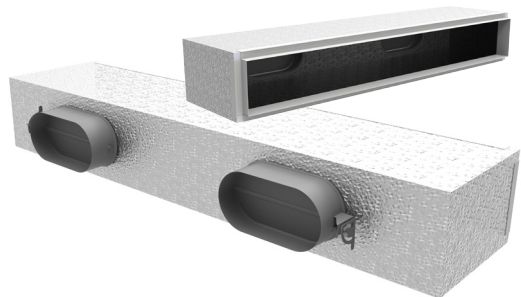

Manufactured from either sheet metal or aluminium foil-faced light weight panel tested to AS/NZS 1530.3:1999.

Sheet Metal Plenum - Insulated with Disc Damper and Strings

Panel Plenum with Profile
